VILLA JAGADITHA
EVENT GUIDELINES

ELITE HAVENS

Introduction

Nestled in the prestigious Cemagi coastline, Villa Jagaditha offers one of Bali's most exclusive oceanfront wedding experiences. With its expansive event lawn overlooking the Indian Ocean, spectacular sunset backdrop, and refined villa accommodations, Villa Jagaditha creates a truly memorable experience for couples and their guests.

Designed for extraordinary weddings and private celebrations of up to 100 guests, the estate offers an exclusive setting where the beauty of the ocean, spectacular sunsets, and refined hospitality create a truly memorable experience.

These guidelines are intended to give Event Organisers (EOs) and their clients guidance specific to Villa Jagaditha and should be read in conjunction with Elite Havens General Guidelines for Event Management.

Introduction

Weather

Generally, April through to October offers good weather conditions for any event at Villa Jagaditha, however, due to recent global weather changes, we strongly advise EOs and guests to consider wet weather conditions and plan accordingly for events during the whole year. Reviewing the weather forecast closer to the wedding day is a MUST during any time of the year, as the villa has no wet weather back up OR big indoor space to accommodate the guests, especially when it involves a larger group.

It is compulsory to use a marquee or a tent on rainy days during the whole year, and special pre-planning will be required for the rainy season months in Bali (due to a high demand for marquees or tents) which normally runs from November – March (subject to change). The marquee or tent must be freestanding and needs to have clear plastic side curtains and proper flooring. A professional vendor is required to ensure the quality of the structure follows EH standards. A list of approved vendors can be proposed.

Event Space

The open living bale could be used for welcome drinks, roaming cocktails and canapes upon guests' arrival to the villa; however, it should not be used as the main event space and no furnitures can be moved or removed.

Ceremonies and reception are best set up beautifully on the lawn in front of the pool. The Main Lawn is Villa Jagaditha's dedicated event venue. Purposefully designed to host all event activities offering panoramic Indian Ocean views and a spectacular beachfront setting.

Event Facilities

Kitchen and Bar

The villa's main kitchen is not designed for event use; therefore caterers must set up a satellite kitchen at the service corridor which is located alongside the villa's main kitchen.

Bar can be set up in the dedicated paved area on the right hand side of the lawn or free-standing bars on the grass. In so doing, caterers should take care to protect the grass by using mats to minimize damage.

Guest Washrooms

There is one guest's washroom available attached to spa room and another one inside the media room for guests use. It is the responsibility of the EO to ensure the cleanliness of the washrooms during the events.

Parking and Access

The villa's parking area is to be kept free for guests' arrival and departure (drop-off and pick-up only). This means that there is no parking on site for EOs or suppliers. Guest and vendor parking is available on the adjacent vacant land, which is under the same ownership as Villa Jagaditha.

Regulations and Restrictions

The open living bale is not available for event use, all furniture's can't be moved or removed. This area also not be used as a contingency in the event of rain.

Marquees must be freestanding. Flooring is allowed but should be done on the day of the event to limit damage to the grass.

Dance floor may be built in the lawn and it must have a raised platform to minimize damage to the grass.

Floating bamboo and foam structures for candles and flowers are permitted however they should be removed by the EO by 1am or as soon as guests enter the pool in order to avoid any damage or injury.

Fireworks, balloon release, confetti bomb, and Thai wishing lanterns are strictly forbidden.

No staging is to be built into or over the pool.
